Allowable Subject Matter

1. Claims 1, and 3-26 are allowed.

The following is an examiner's statement of reasons for allowance:

The allowability of the independent claims 1, 13 and 22 resides, at least in part, in that closest prior art of record Andreiko et al. (U. S. Patent 5,431,562) does not disclose or suggest, alone or in combination, generating specific data to customize an appliance in conjunction with the template, the specific data comprising a target spline; wherein the source spline and the target spline define at least one tool path, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
